Source: U.S. Census Bureau, 2010 American Community Survey, 5 year estimate

An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.

(I) A parish which is within the lowest twenty-five percent of parishes based on per capita income.

(II) A census tract block group that is below the state median per capita income, based on the most recent federal decennial census.
