20110957-ITE	Nalco Company	St John the Baptist	Project will install a new larger river water clarifier, sand filters, distribution pumps, third deionization unit and associated piping, instrumentation and control systems. These items will provide more water which is a raw material for the production units, allowing more production of water treatment chemicals. A proportional increase of waste in the wastewater will result so this project will also install a new primary clarifier (dissolved air flotation unit planned), a new equalization tank, and an upgraded polymer feed system to help treat the additional load. 20120564-RTA	Lucas Lilly	Orleans	This structure is a Victorian double shotgun camelback situated on brick piers. The existing historic façade features include a concrete front porch and decorative porch awning. Post-war period alterations include the removal of transoms above the two front doors, reduction of size and replacement of the front two floor-to-ceiling 6-panel divided windows with louvre windows, and an asbestos roof was installed. In addition, post-war modifications included a lean-to addition to accommodate indoor plumbing for bathrooms and the removal of chimneys from the roof line. The ornamental brackets under the porch eave common to the Victorian style were lost or stolen following Hurricane	Renovation	0	3	\$0	\$51,500	\$201,500	2125-27 Annunciation St.	New Orleans	Lucas Lilly (217) 979-2415	236118	\$36,346
