1	Thank you, Melissa. We're
2	going to ask again this time as
3	you make motions and seconds if
4	you could just state your name
5	for our court reporter to make it
6	a lot easier on her, and I still
7	don't quite have everyone's names
8	down.
9	With that, I would like to
10	get has everyone had a chance
11	to read the minutes? Can I get a
12	motion to approve them. Mr.
13	Slone. Seconded by Dr. Wilson.
14	Well, this is a very
15	momentous occasion for us here at
16	the C&I Board. We have never had
17	a sitting Governor appear before
18	us, so I would like to give the
19	Governor of Louisiana a welcome.
20	(Applause by all attendants.)
21	So, Governor, I would like to
22	ask you to address the audience
23	as well as the Board.
24	GOVERNOR EDWARDS:
25	Well, thank you, and part of

1	what I'm doing here today is
2	precisely because no Governor has
3	ever been here. I believe this
4	program has been on auto pilot
5	for too long and it's time to do
6	something about it. The
7	industrial tax exemption in the
8	State of Louisiana is unusually
9	generous, and that's a quote from
10	the tax foundation, and it is a
11	program that I believe has not
12	been watched carefully over the
13	years. It's been on autopilot
14	and I believe it's time that we
15	we insist upon some changes,
16	and so that's what I'm doing here
17	today and I'm happy to be with
18	the Board of Commerce and
19	Industry to talk about this
20	particular program, and I'm glad
21	to see so much interest from the
22	public as well. I suspect that's
23	a first here, too.
24	Look, the fact of the matter
25	is the aggregate value of ad

1	valorem taxes that are being
2	exempted because of the
3	Industrial Tax Exemption Program
4	is now greater than the homestead
5	exemption in the State of
6	Louisiana. You-all see these
7	books in front of me. Those are
8	ITEP applications. There's only
9	two pages per application, and
10	those are all before you right
11	now for approval. Louisiana is
12	the only state that controls
13	industrial tax exemptions at the
14	state level, but the taxes that
15	are being foregone are the
16	locales and yet we do not have a
17	procedure in front of us that
18	requires the input of the locals
19	before this Board Act.
20	Further, the industrial tax
21	exemption is not tied to job
22	creation. Now, it's justified
23	because you can allow us to make
24	this investment in our

1	can afford to forgo the ad
2	valorem taxes that we would
3	otherwise pay because we are
4	going to be creating jobs in your
5	local area and that's going to
6	benefit the economy and all of
7	the sales tax collections and the
8	people moving here, but the
9	rationale for this program,
10	absent job creation, really isn't
11	there. So I have decided, based
12	upon the constitution with vest
13	with me the discretion to either
14	approve ITEP exemptions or not to
15	tie my approval to a few things
16	that I believe will greatly
17	improve the program overall. It
18	will remain extremely generous
19	but it will also be competitive,
20	and we are going to make sure
21	that we tie it to job creation
22	and local governmental official
23	input.
24	I would also invite your
25	attention, and I understand that

1	many of you are new and some of
2	you are not, on occasion you just
3	ought to open the constitution
4	and read it and look at what the
5	constitution says with respect to
6	the industrial tax exemption. The
7	State Board of Commerce and
8	Industry are a successor with the
9	approval of the Governor may
10	enter into contracts for the
11	exemption from ad valorem taxes
12	of a new manufacturing
13	establishment. A new
14	manufacturing establishment or an
15	addition to an existing
16	manufacturing establishment on
17	such terms and conditions as this
18	Board, with the approval of the
19	Governor, deems in the best
20	interest of the state. Now, we
21	all know what the new
22	manufacturing establishment is
23	but the word "addition" has been
24	stressed beyond any reasonable
25	understanding of that term. There

1	are ITEP applications before you
2	that deal with maintenance simply
3	replacing a piece of worn out
4	equipment. And if you will look
5	at these applications, many of
6	them reveal zero temporary
7	construction jobs and zero
8	permanent jobs, but the
9	industrial tax exemption would
10	remove from them the burden of
11	paying hundreds of thousands of
12	dollars in ad valorem taxes, so
13	it's just too generous and it's
14	time we bring it in, we can form
15	it with the constitution and we
16	make sure we give locals some
17	input and we tie it to jobs, and
18	so I'm here to tell you that
19	and, by the way, you may go up to
20	100 percent and you may do it for
21	as long as ten years. This
22	program has been autopilot,
23	everything has been one hundred
24	percent and everything has been
25	ten years. We need to do better.

1 We need to be more competitive, 2 and so I'm here to announce that I will be signing an executive 3 4 order to let everyone, including you-all know, the industry, 5 6 especially you, but also 7 manufacturers, the conditions upon which I will or will not 8 consent to an industrial tax 9 10 exemption going forward and when 11 that will be in place, and so I 12 wanted to come here and share my 13 thoughts with you.

And just a couple of other items. This program has become an entitlement program, not an incentive. If we reduced the exemption by 30 percent, we would still be, in many categories, the most generous state in the nation with respect to the industrial tax exemption. These exemptions will cost local governments over \$7 billion over the next five years. So I've asked Richard

1	House, an attorney working with

16	and certainly while I'm here, Mr.

19	happy to answer those questions.
20	MR. WINDHAM:
21	Thank you, Governor. Does

23	MR. ADLEY:
24	Governor, in talking with
25	some of the members of the Board,

1 the only question that was asked 2 that I would like to just make totally clear for them, the 3 4 effective date of the Executive Order is going to be today at 5 6 this moment, is that -- am I 7 interpreting that correct? 8 GOVERNOR EDWARDS: 9 Well, I haven't signed it 10 It can't be effective before I sign it, but it will be 11 12 very, very soon. 13 MR. ADLEY: 14 So what we do today, Okav. 15 we will be taking action that is 16 vested in the Board knowing that at whatever action we take that's 17 18 what your position is as we move 19 forward. The only question --20 the question people have asked is 21 that these that have been placed 22 before us, I think it is our 23 obligation now to at least 24 determine these applications what 25 is attached to jobs, what is

#### Torres Reporting & Associates, inc.

1	constitutionally correct, but the
2	Board itself still has that
3	obligation to do their due
4	diligence. Is that what I
5	would that be a fair statement?
6	GOVERNOR EDWARDS:
7	Yeah. I think the
8	constitution always requires that
9	we honor it and it's always this
10	Board's job to make sure that
11	these applications, if they are
12	going to be granted, are
13	consistent with the law and best
14	interest of the state, and so I
15	would I would certainly
16	because the Executive Order will
17	not affect the applications
18	before you with respect to those
19	that had advanced notification,
20	that doesn't mean that you're
21	obligated to approve them. You
22	do whatever you would normally
23	do. And this is a new Board, and

12	MR. WINDHAM:
13	Do any of the Board members
14	have any questions of Richard?
15	Thank you, Richard.
16	MR. SLONE:
17	Yeah, just a question. You
18	read that, and I appreciate you
19	sharing that information with us,
20	but right now it's hard to grasp
21	everything that you read in an
22	effort to ask appropriate

24	So is there going to be an

#### MR. HOUSE: 1 2 Yes. Yes. We'll set that We'll be available and 3 time. 4 this will be an ongoing process as we go forward. Don may want 5 6 to address that now, but as we go 7 forward, it's going to obviously 8 require coordination with the Board, it's going to require 9 10 coordination with local officials, and we'll move forward 11 12 in an collaborative effort. 13 MR. SLONE: 14 And I guess my next question was -- I want to make sure I 15 16 understand when you talk about 17 the current contracts that are 18 out there, the advanced 19 notifications that are out there, 20 those will remain in effect if they create jobs, and let's see, 21 22 here, you mention something about 23 no -- pending with no advanced notification. I need a little 24

clarity on that.

#### 1 MR. HOUSE:

2 Yeah. You have two things; you have advanced notification 3 4 and you have miscellaneous capital additions. When the 5 6 Governor signs the miscellaneous 7 capital additions, unless the 8 miscellaneous capital additions 9 pending right now, may be 10 pending, not on your agenda today but that are out there, when he 11 12 signs the Executive Order, unless 13 there is miscellaneous capital 14 additions provide for jobs, then 15 that's it, they will no longer be 16 operative. The application will 17 no longer be operative. When you 18 have advanced notifications, any 19 advanced notifications, any valid 20 advanced notifications pending as 21 of now, not on your docket for 22 today, but pending as of now, 23 will not be subject to the 24 Executive Order.

5	MR. MILLER:
6	You talk about a compelling

11	They are going to have to be

14	MR. MILLER:
15	And when we use the word
16	"jobs" are we talking about
17	company jobs or contract jobs,
18	i.e. has Turner Industries
19	comes with a thousand jobs. Do

1	look at the entire Executive
2	Order, that would be taken into
3	account in terms of perhaps how
4	much of an exemption a person
5	would get or an applicant would
6	get. Whether it be one hundred
7	percent or whether it be 50
8	percent, it would depend on what
9	the Department of Economic
10	Development might recommend to
11	the Board. It would also depend
12	on what would be recommended to
13	and agreed by the locals, so it
14	could also be a contract that is
15	automatically being for ten years
16	would be for four years, six
17	years, seven years. It's going
18	to depend on the types of jobs,
19	and you ask about a particular
20	type of job. It's going to
21	depend on the types of jobs. It
22	can also take in other factors
23	such as benefits, healthcare,

MILLER: 10 I understand that. 11 But 12 currently the way it works, and 13 if I'm wrong, I need to be 14 corrected. There's advanced notification and it gets approved 15 16 -- no. Just an advanced notification. Okay. The whole 17 18 project gets built, the money 19 gets invested, and then they come 20 here and then we'll determine 21 what they get or not and they 22 know that now that they might not 23 get it. 24 MR. 1	We don't have a way to do that
2	typically today. So this is
3	simply a way to get to
4	accountability in this process.
5	You haven't changed my ability to
6	compete. The parish can still
7	stand up and say, we are going to
8	give you a ten year tax exemption
9	and we are going to do it at one
10	hundred percent, so I can still
11	compete against Texas,
12	Mississippi, Arkansas, whoever I
13	need to compete against, but what
14	will be different is that your
15	voice at the local level will be
16	heard and that there will be more
17	accountability behind the
18	programs that align it with
19	what's constitutionally mandated.
20	MR. HOUSE:
21	And at each of those states,
22	you are competing with individual
23	counties and localities in each
24	of those states, and they all
25	seem to do very well in terms of

1	competition, so we believe
2	competition that we're going to
3	have and the local elements that
4	are going to be involved are
5	going to enhance our ability to
6	compete. No longer is this
7	many times the people you are
8	dealing with don't appreciate
9	what they're getting.
10	MR. MILLER:
11	And also, as the our own
12	locals compete.
13	MR. HOUSE:
14	That's right.
15	MR. WINDHAM:
16	Anyone else? Governor.
17	GOVERNOR EDWARDS:
18	Mr. Chairman, thank you very
19	much. And those were great
20	questions and there's true to be
21	many more. And any time that
22	there is change there's always
23	going to be some anxiety because
24	we're asking people to do things
25	they haven't done before, but

1	when you look at the generosity
2	involved in these exemptions,
3	making some course correction
4	now, tying them to jobs, getting
5	local input is incredibly
6	important, and here before this
7	Board has operated basically in a
8	ministerial capacity. You are
9	called upon the constitution to
10	do more than that, and so I'm
11	asking you to exercise the
12	discretion that's been vested in
13	you by the constitution to make
14	sure that these things are in the
15	best interest of the state, and,
16	as Governor, I'm going to do that
17	as well. And so we are going to
18	be competitive, we are going to
19	remain very generous, and we're
20	going to conform this program to

22	practices in other states where
23	it works extremely well. Many of

3	proposing today, so it's I
4	think it's the right thing to do.
5	Obviously I wouldn't be here, and
6	so I'm asking for your
7	cooperation and all of that and
8	trying to make sure that I
9	clearly communicate to you those
10	instances where I will consent
11	and those where I won't because
12	my function will not be reduced
13	to merely ministerial in nature.
14	And, again, it will remain very
15	generous. We are going to remain
16	very, very competitive, but this
17	correction is required, and I
18	think and I'm not going to ask
19	you to raise your hands if you
20	read through this, but if you
21	would just spend some time and
22	look at some of these
23	applications and look at the

25	twelve applications pending

3	didn't have to give advanced
4	notification, and then look over
5	to the right, they are creating
6	no permanent jobs. Many of them
7	create no temporary jobs. We can
8	do better than that. We have to
9	do better than that. If we're
10	not creating or retaining jobs
11	then there is no rationale for
12	this program. So we're going to
13	move forward in a way that is
14	deliberate. We are certainly
15	open to suggestions for revisions
16	if there are things that we
17	haven't taken into consideration,

The way the Quality Jobs is going to work is we are going to have applications come through the Board and then it's going to go through the Governor's There is a little bit signature. of a delay in that, but for this case the contract effective date was January 1 of 2011, so that would put the five year term at 12-31 of '15, so, therefore, on the Quality Jobs rules you have to have your renewal request in from 60 days past that, so, therefore, that means the request needed to be in 2-29 of '16 and instead it was received on April Just wanted to clarify that because I'm not sure if that is shown there on your agenda. MR. HADDEN:

Thank you. That's correct.

2	machinery that's replacing old
3	machinery, for whatever reason,
4	by definition under the law is
5	that an addition or not? I think
6	the constitution says it's either

8	in my mind I'm trying to get to
9	how do we define just more

12	MS. CHENG:
13	It's an addition if the other

15	MR. BUTLER:
16	The machineries that are

25	MR. BUTLER:

1	Correct.
2	MR. ADLEY:

WARD: Mr. Chairman, I think if 7 8 there isn't any type of language in the contract that states for a 9 10 scenario like this where the incentive is actually saving jobs 11 12 or sustaining jobs, I think that 13 would be important documentation 14 for this Board and this -- for LED to have, if it's competitive 15 16 components, if you will. 17 MR. Construction job. 1 2 MR. WINDHAM: Mr. Miller, time is 3 4 effectively reduced. If the second item is reduced by the 5 6 amount of its contract that item that is replacing could have been 7 8 on a previous contract. It only had two years left in its amount. 9 10 When it comes to off of that 11 contract then it goes on to the 12 tax roll assuming it's at the end 13 of the second year period, so 14 200,000 would come off in two 15 years and would go on to the tax 16 roll. The other 300,000 in your example would still have a life 17 18 of five years but it would be 19 three years from the time that 20 the 200,000 went under that tax 21 roll, so it's not a continuation 22 of perpetuation of exemptions, so 23 I just want to make sure that was real clear, and Kristin's answer 24 25 for all of the Board members. #### 1 MR. ADLEY:

2 I would like to make a comment, Jerry. I had asked him, 3 if he would and it's up to the 4 Board, however y'all want to 5 6 handle it, clearly, I had only 7 suggested to him it might be wise 8 to work your way through your list so that instead of doing 9 10 this in-globo that you can 11 actually make a motion that you 12 may defer some, but you may find 13 out as you move through the list 14 it's very difficult to find out 15 at this point what the real 16 definition is and I'm hoping before we have to make that 17 18 decision we work through a few 19 more of these and try to figure 20 out what that is. I just know 21 based on what I -- me, 22 personally, what I heard thus far 23 I would say I wouldn't vote for 24 anything from Boise Cascade. We 25 don't know what it is. There is

1	So all of these projects were
2	filed out of our tax department
3	in New Jersey. I do not do any
4	of that in our department. I can
5	assure you that all of the
6	projects were new capital
7	additions. There were
8	construction jobs involved.
9	Probably none
10	MR. ADLEY:
11	Explain to me I'm trying
12	to understand this new
13	capitalization. Tell me what
14	that means.
15	MR. BAILEY:
16	That would mean that we
17	either replaced a piece of
18	equipment with a new piece of
19	technology to get more
20	susceptibility or better process
21	with new product or we completely
22	added a new piece of equipment.
23	None of this would have been for
24	maintenance repairs.
25	MR. ADLEY:

1 And why is that not 2 considered maintenance and 3 repair. 4 MR. BAILEY: Because by our definition of 5 6 capitalization, we do not allow 7 capitalization if we are 8 replacing in kind or just getting a piece of equipment back up into 9 operated order. It has to be a 10 11 new piece of technology or get us 12 something in advance of what we 13 currently had. 14 MR. ADLEY: 15 I got you. And the separate 16 projects is the reason you didn't do the advanced notification? 17 18 These are all separate? Every one 19 of them is separate? None of 20 these are together? 21 MR. BAILEY: 22 Yes, sir. They are all 23 separate. Keep in mind we have 24 30 plants on our site. 25 MR. ADLEY:

### Torres Reporting & Associates, inc.

1	Okay. I am going to ask the
2	staff. The language about the
3	capitalization that he is
4	referring to, the legal
5	justification for that insuring
6	us that this is not some
7	maintenance. I want to get a
8	clear definition of that. If you
9	have that, I would love to get it
10	from you, but whoever has it, I
11	think it is going to be really
12	important for you through all of
13	this. How do you get to that
14	determination. Does the
15	Department have anything that
16	defines that.
17	MS. CLAPINSKI:
18	Good afternoon. Danielle
19	Clapinski, attorney at LED. In
20	order to be a capital addition,
21	it has to have a useful life,
22	according to the IRS, in excess
23	of one year, and there are
24	different schedules for those
25	depending on the type of

1	MR. ADLEY:
2	Tell me what that means, it's
3	got to have what for one year?
4	MS. CLAPINSKI:
5	A useful life in excess of
6	one year.
7	MR. ADLEY:
8	A life in excess of a year?
9	MS. CLAPINSKI:
10	Yes, sir.
11	MR. ADLEY:
12	I thought you said less than
13	a year. Okay.
14	MS. CLAPINSKI:
15	No, sir. That means it's
16	capitalized on a tax return.
17	MR. ADLEY:
18	So how does that relate to
19	whether or not it's maintenance
20	or it's an addition?
21	MS. CLAPINSKI:
22	For tax purposes, like they
23	said previously, maintenance and
24	repairs is expensed, meaning the
25	full value or the full cost of

1	that is taken as an expense on
2	that current years tax return.
3	If it's a capital cost and it has
4	a useful life more than one year
5	it has to be capitalized, so it
6	will be taken and depreciated
7	over time according to different
8	depreciation schedules depending
9	on the type of equipment or
10	property that it is.
11	MR. ADLEY:
12	And so how does that relate
13	back to our law that has to be
14	new or an addition? You interpret
15	if it's capitalization it's an
16	addition; is that correct? Is
17	there something that we fall back
18	on and say, yep, that's what that
19	is.
20	MS. CLAPINSKI:
21	I think over time as the
22	program has evolved either a new
23	establishment or an addition
24	to
25	MR. ADLEY:

1 That's the problem of how 2 it's evolved. I'm looking for some guys -- do you have the 3 4 answer? MR. MILLER: 5 6 I have a question that seems 7 like it might. What you said is 8 -- as I understand it, 9 maintenance is an expense item. 10 Why would you capitalize it and 11 put on the books for any reason? 12 MS. CLAPINSKI: 13 You wouldn't. 14 MR. MILLER: Because it would be --15 16 property tax would be available 17 on it -- you get the expense and 18 reduce your income, it never 19 shows up on the books ever, so 20 why would you want to put 21 something on the property tax 22 roll under any -- or on the 23 program that is going to come on 24 the property tax roll which that 25 should never be there.

is really well taken. You have no 1 2 incentive to capitalize it at 3 all. 4 MS. CLAPINSKI: That's correct. And I can 5 6 tell you from a historical 7 perspective, I have been at the 8 Department for about five years 9 now and the entirety of my time 10 here is the -- new equipment has been considered an addition. 11 Ι 12 don't know how long before that 13 it began. 14 MR. 1 we would take off the old piece 2 of equipment and put on the new, yes, we capitalize that. 3 MR. 19	Yes, sir. These projects

1	Okay. Let me ask you this.
2	All of these is this one
3	one job? What I'm trying to get
4	to is is that when you receive \$5
5	million you have to give advance
6	notice. I'm getting the
7	impression from you this is
8	really just one big job that
9	didn't get the advanced notice
10	and it was split up into four
11	pieces. Is that right or wrong?
12	MR. LEONARD:
13	No, sir. This was one

17	MR. ADLEY:
18	You did file an advanced

20	MR. LEONARD:
21	Methanex filed an advanced

23	entire project.
24	MR. ADLEY:
25	On the first?

2	The first, correct.
3	MR. ADLEY:
4	And then what happens
5	thereafter?
6	MR. LEONARD:
7	And then Methanex carved out
8	the logistics piece of its
9	project and decided to outsource
10	that part of the project to
11	Kinder Morgan and that involved
12	the dock system, the tanks, some

14	MR. ADLEY:

22	MR. ALLISON:
23	No. This is part of the large

a total here of \$16, \$17 million, 1 2 whatever these four add up to for these particular assets. This is 3 4 a cost of the assets that Delta Terminal owns at Methanex's 5 6 facility in Ascension Parish. 7 MR. ADLEY: 8 Did I hear you say that it 9 leases it to them? 10 MR. ALLISON: Well, the inclusions for a 11 12 manufacturing establishment are 13 an addition to a manufacturing 14 establishment, and the Methanex 15 site is a manufacturing 16 establishment. If Methanex owned these assets on that site there 17 18 would be no question about it, so 19 just because someone else owns it 20 it doesn't change -- but it 21 doesn't change the nature of what 22 these assets are doing and what 23 is happening at that site. 24 MR. Within that building manufacturing would 17 18 go on but it was under a lease because the owner is the one that 19 20 is liable for the property tax, 21 so it has to be the owner that 22 gets the contract. 23 MR. goes back to Mr. Allison and Mr. 1 2 Leonard's point was that Methanex owned the site, Delta Terminal 3 4 was operating a portion of that site and they were not engaged in 5 6 manufacturing at that themselves 7 but they have provided buildings 8 or facilities that consist of manufacturing equipment operated 9 10 specifically for the 11 manufacturing process. 12 MR. 1 they capitalize it and it goes in 2 ITEP, and I don't think that is the intent or it may be. It may 3 4 be in your rules. MS. 9	and I get it, but I got to tell
10	you that I personally don't think
11	that's what that's what this

13	and all of these applications
14	with no jobs, that's not what
15	this I don't think that's what
16	the Governor thinks it ought to
17	be about. But with those
18	qualifying remarks, certainly not
19	going to object to the approval
20	of these. But it also I have
21	to say that this concerns me
22	very, very much that we have
23	people receiving huge tax
24	exemptions that don't show up for
25	one of these meetings. I walked

3	so that you know, I have been

8	just review all of this stuff
9	last month, these applications
10	are flying in the door, so the

17	the Board some of them may

Local 17 governments want to work with 18 Business and Industry. We're 19 excited and anticipating a very 20 fruitful relationship and 21 positive relationship with 22 Business and Industry. 1 capital additions. Does that 2 apply to this patch or anything we consider after this meeting? 3 4 MR. ADLEY: It does not. I think 5 No. 6 that he made that clear. It will 7 go from the day of his Executive 8 Order, from my perspective, 9 that's today. stuck, but hopefully we're going 1 2 to get unstuck. And, listen, I want to follow 3 4 up on what Richard said, this state is clearly open for 5 6 business but I think people really need to remember this, 7 8 this is very important: Louisiana ranks No. 1 in America 9 10 as the most beneficial place to 11 invest your money as a business 12 by a long shot because of the 13 ratio of state and local taxes to 14 investment. That number is 0.1 15 percent, and those Quality Jobs 16 that you added in the inventory credits and all of that takes 17 18 that into a minus category, so 19 we're No. 1 by a long shot, and 20 we are going to stay No. 1 but we 21 make some dramatic changes and 22 stay No. 1. And, at least in my 23 view, and I think in the Governor's view, things need to 24 25 change, but does it change right

Kristin, can you re-read the 1 2 rule again. MS. CHENG: 3 4 The rule. The term of the renewal contract may be reduced 5 by one year for each calendar 6 7 month or a portion thereof that 8 the renewal application is filed 9 late. The Board may impose any 10 other penalty for late renewals submission that it deems 11 12 appropriate. This one was filed 13 two months late. So that would 14 reduce the renewal period if you follow that rule by two years. 15 16 MR. #### MR. MILLER:

I quess I find it a little 3 4 tough that we're changing rules and this has always been there. 5 I guess the accepted practice has 6 7 always been to do it, and, you 8 are right, it was kind of given, but they do have to do paperwork 9 10 and have to do it on time. 11 guess since this process has been 12 done and I think the staff will 13 say that we've never penalized 14 anybody in any form or fashion, and I don't know that this --15 16 there needs to be a line in the sand, in my opinion, from, okay, 17 18 new game in town, if you are late 19 next year, you are done. You are 20 going to lose a year for every 21 I just find it hard to do month. 22 it for folks who year after year 23 has been going on and on and on. 2	MS. CLAPINSKI:
3	On renewals, no. There is a
4	provision for miscellaneous
5	capital additions when you file
6	that says the Board shall reduce
7	one month I am sorry, one year
8	for every month or a portion
9	there of late, so in that there
10	is not the discretion and we
11	bring those to the Board with the
12	reduced terms.
13	MR. RICHARD:
14	Let me rephrase my question.
15	On the late renewal request the
16	Board has discretion, the Board
17	may impose any other penalty for
18	late renewal submission that it
19	deems appropriate. I'm reading
20	off of your document.
21	MS. CLAPINSKI:
22	That's correct.
23	MR. RICHARD:
24	And to date, there is no
25	process, there is no precedent.

1	There is no matrix. There are no
2	formula for a business entity
3	that, you know, I think there's
4	some factors that have to be
5	taken into consideration, and
6	this is just Scott talking this
7	time. When we have entities that
8	are late renewals and have been
9	notified and are asking the Board
10	to renew and don't show up, to me
11	that brings in a whole another
12	level of dialog, and then we have
13	folks like this young man who
14	shows up not once but twice and
15	presents his case. I think that
16	sets another level of dialog, and
17	I would hope that as a Board we

19	certainly have it says the
20	Board may impose any other

3	with staff so it's not arbitrary
4	when a penalty is imposed, and at
5	the same time it puts folks on
6	notice that there's penalties
7	involved and things are changing.
8	That's just my thoughts at this
9	point, and I think it would
10	you know, it would be wise for

I think that the 9 10 other thing that we have to bring -- take into account should we be 11 12 doing penalties or sending a 13 message that you better -- you 14 better file on time, absolutely we should. We haven't done a 15 16 good job of it, we need to do better. But I'm not sure that we 17 18 let that hammer fall today, and 19 the reason is is that I don't 20 know -- I think you are fortunate 21 enough, young man, to perhaps be 22 your own boss or at least have a 23 pretty good relationship with whoever the boss is, but I don't 24 25 know who else is going to come up

That's 10 what we do, and it's a five year exemption. That's all it is. 11 12 There is no automatic on the 13 other five. It's something that 14 you got to go try and get. That's 15 why I disagree with you on just 16 giving these things away, particularly when they don't make 17 18 the effort and come in late, and, 19 you know, look it is what it is. 20 I get it. I'm not -- but you got 21 what the State of Louisiana 22 promised you, didn't you. You 23 did. You are not in here getting 24 something we promised you we are 25 taking back, are we. This is a

4	industry if the exemption is
5	important, which I think it is, I
6	think the industry bears the
7	responsibility of filing for the

9	I wrestle with here is, as I said
10	earlier on the last motion, I
11	don't know if today is the right

2	change our ability to complete

4	It's an important message to me
5	and my colleagues and to the
6	people professionally
7	representing across our state and
8	in the competition for these
9	projects. What it did do is
10	bring an important local voice of
11	governance to the table as it
12	relates to these exemptions and
13	it brings this new concept of CEA
14	which defines what the
15	accountability measures are for

18	enjoy this abatement of their

20	important part of a public
21	partnership or a public/private
22	partnership, so we look forward
23	to working through this. We know
24	there are a lot of seminars, a
25	lot workshops that we'll be doing

1 within the municipalities, within 2 the School Board systems all across the Board for all of those 3 4 impacted and affected, but I think we can do that very quickly 5 6 and efficiently and continue to 7 move things forward, but we're 8 going to do so in a manner that 9 bring some great accountability 10 to the state.

> Finally I want to comment that this is in no way related to these recent sessions. Since early January the Governor has asked us to look at all of our programs and numerous times in our last 180 days we've been back and forth across the street at the legislature in front of the senate, in front of the house, in front of this tax policy structure committee talking about all of our programs and demonstrating the accountability that is associated with each one

I will remove my name. 1 Let 2 Mr. Adley have the glory. MR. BRASSEAUX: 3 4 I want to make a comment. First of all, I want praise Mr. 5 Windham on conducting the meeting 6 7 on this trying times, and for Mr. 8 Adley and Mr. Jones and Mr. 9 Miller to step up to the plate 10 and accept the responsibilities 11 or anyway, it's -- I have been on 12 this Board for two and a half 13 years and I got to admit that 14 this is the most productive 15 meeting that I've been to, so I 16 appreciate everybody on this 17 Board and the staff especially. 18 MR. WINDHAM: 19 Thank you very much. And I 20 second that on the staff. there is only one nomination for 21 22 vice chair, the nomination is 23 I believe, Mr. Richard closed. closed them. All in favor 24 25 indicate with an aye.

1	(All Board members stated
2	aye.)
3	All opposed? Motion carries.
4	So the next chair for the year
5	will be me and vice chair will be
6	Robert Adley.
7	Any other business to come
8	before the Board?
9	MR. MILLER:
10	Are we creating a rules
11	committee?
12	MR. WINDHAM:
13	Are we creating today who
14	would like to volunteer for the
15	rules committee? If you would
16	like to volunteer for the rules
17	committee please raise your hand.
18	MS. CLAPINSKI:
19	Can you call care their
20	names.
21	MR. WINDHAM:
22	Manny, Mr. Fabra, Mr. Moller,
23	Mr. Slone, Mr. Miller, Major,
24	Yvette Cola and Daniel
25	Shexnaydre. And obviously Mr.

1	Adley.
2	MS. CLAPINSKI:
3	So we have an even or odd
4	number?
5	MR. ADLEY:
6	All of those that raised
7	their hands, when we adjourn, it
8	would be really helpful if we
9	stay back for five minutes and
10	that will be helpful and try to
11	get started.
12	MR. WINDHAM:
13	Any other business to come
14	before the Board?
15	MR. RICHARD:
16	Mr. Chairman, I hate to
17	belabor the point. Just a quick
18	question. Would the rules
19	committee consider will they
20	be addressing some of the issues
21	that we dealt with today in
22	regards to the discretion of the
23	Board to levy penalties, is that
24	something that the rules
25	committee would take up? So we

2	of penalties with infraction?
3	MR. WINDHAM:
4	I am sure that can be worked
5	out with staff.
6	MR. RICHARD:
7	I come from the world of
8	education and we have handbooks
9	and guidelines and guidebooks for
10	everything.
11	MS. CLAPINSKI:
12	And just as a reference
13	these are rules that have to be
14	published under the
15	administrative procedures act
16	process, so it won't be
17	necessarily a separate handbook,
18	those types of things can be
19	incorporated into the rules.
20	MR. RICHARD:
21	I understand. That's why I'm
22	asking. Thank you.
23	MR. WINDHAM:
24	Any other business?
25	MR. MILLER:
